

The Sixth Sense: Connecting With the Attributes of Your Creator

The Complication: The Physical Trap

Misplaced Longing

We mistakenly try to satisfy spiritual hunger through things we see, touch, or taste.

Human beings belong to the LORD

The Five-Sense Rebellion

Choosing physical distractions over a godly spirit leads us away from our intended design.

“Worship is the longing of a human soul to belong.”

The Solution: Reclaiming Your Sixth Sense

Activate Your Inner Voice

Use your intuition and conscience to listen for the voice embedded in your soul.

Redirect Your Worship

Set aside physical distractions to adore the Creator's value instead of personal preferences.

Human beings should ache to return to godly morality.
